DR. MARYANN PREWITT

AGE MANAGEMENT, FUNCTIONAL MEDICINE AND GYNECOLOGY

Dr. Prewitt, founder of HealthWellnessMD, knows that for healthy loving relationships to thrive an active and pleasurable sexuality is key. For men, this means a strong and long-lasting performance. Sometimes, however, external forces get in the way: stress, age, and lifestyle factors interfere with the satisfaction that you and your partner deserve. Many resort to temporary treatments from the drugstore or healthcare providers. But quick fixes like the "little blue pill" make spontaneity difficult and risk a long list of side effects. Even for men who consider themselves problem-free, but would still like a boost in the bedroom, a safe and healthy alternative is long overdue.

Until now, Dr. Prewitt is the only physician in Dallas to offer the new natural GAINSWave therapy for male enhancement. This noninvasive and pain-free treatment utilizes acoustic sound waves to promote new tissue and blood vessel growth, which restores and increases blood flow. Sound wave therapy has been proven in clinical trials to help with a wide range of complaints—from severe ED to men simply seeking improvements in performance or stamina. We treat you in the privacy of our Med-Spa in under an hour, with zero downtime. As for side effects? Ask your satisfied partner.

HealthWellnessMD is the exclusive provider of this gentle natural male enhancement therapy. Call us at 469.777.4653 to learn more about this exciting new alternative.
