

TAKE CARE OF YOUR BODY.

IT'S THE ONLY PLACE YOU HAVE TO LIVE.

Introducing BodyTite: Nonsurgical Lipo and Skin Tightening at Once!

While a nourishing diet and consistent exercise regime are at the heart of staying fit, sometimes stubborn fat remains. As we age - or after weight loss - we may look trim but collagen loss leaves our skin saggy and loose. Dr. Maryann Prewitt offers nonsurgical liposuction for exceptional and rapid body contouring with the added benefit of tightening the skin. With BodyTite, we can achieve the shape you've always dreamt of without surgery.

If you don't have the downtime for traditional liposuction but you're seeking a solution for excess fat or aging or sagging skin, BodyTite from InMode is an exciting new alternative. BodyTite uses radio frequency assisted lipolysis (RFAL) for dramatic results without the surgery or scars. BodyTite is the first procedure that melts fat and tightens the skin at the same time. It's minimally invasive and Dr. Prewitt performs BodyTite right here in our medical spa.

- Dramatic and permanent volume reduction
- Shapes and tightens skin
- Minimally invasive with no scarring
- Surgical-quality results without surgery
- Immediate and long-term results
- Minimal downtime

What areas can you treat?

Abdomen, flanks, hips, buttocks, back, thighs, upper arms - just about anywhere excess fat exists. And once the fat is gone, it's gone for good and you get a lifetime of change.

You've got one body - make it the body of your dreams.

\$500 OFF BODYTITE IN DECEMBER FOR MODERN LUXURY READERS
